

Schedule C Municipal Class Environmental Assessment

Public Consultation – Phase 3

Township of Essa

Wastewater Servicing for Baxter

A Municipal Class Environmental Assessment (Class EA) was completed in 2012 by CL Marshall Farms Ltd and identified a Preferred Alternative that was based on a municipal wastewater collection system bringing wastewater to a central sewage pumping station that would pump all wastewater to the Angus Wastewater Treatment Plant by forcemain. Brookfield Residential re-commenced a Municipal Class EA to assess the alternative solutions under Schedule B or Schedule C to meet the projected demands and identify and evaluate the alternatives for wastewater treatment for the Community of Baxter. In accordance with the Municipal Class Environmental Assessment document (MEA, 2015), the Class EA re-commenced in December 2019. The project team has defined the problem and opportunity, alternative solutions, reviewed potential impacts, evaluated the alternatives, and identified a preferred alternative.

As required for Schedule C projects, Brookfield Residential and Azimuth Environmental are making preliminary study materials and plans available for public viewing.

The mandatory second Public Information Centre is scheduled to occur on September 22 from 3:45 to 7:45pm at the Baxter Baseball Diamond located at 119 Murphy Road. Physical distancing protocols will be in place, and all people must wear a face covering. To reduce waiting times, we are taking reservations for 50-minute time slots (3:50pm to 4:40pm, 4:50pm to 5:40pm, 5:50pm to 6:40pm, 6:50pm to 7:40pm). After September 13, please call or email Mike Jones (705-721-8451 x213 or mike@azimuthenvironmental.com) to reserve your spot. RESERVATIONS ARE MANDATORY. A maximum of 20 persons per time slot will be allowed for each time slot. Each period will include a 10-15 minute presentation followed by time to view posters

and ask questions.

The same information that will be available at the Public Information Centre will also be available on-line at (www.azimuthenvironmental.com - follow the tab under "Documents"). A comment form will also be available on-line and you can directly call the two people below to ask any questions. It is requested that comments be submitted in writing prior to October 8, 2021 so they can be considered in the finalized Phase III Report.
